

**The Center for RNA Biomedicine
wants to ensure that events are a safe
and enjoyable experience for all participants.**

In order for us to do everything we can to create a comfortable, enjoyable, and safe environment for everyone, we ask that everyone does their part in following these safety guidelines to allow us all to have this event at the Biomedical Science Research Building IN-PERSON.

**The following protocols will be in place
for participants attending events:**

Face masks that cover the nose and mouth are required for all participants, regardless of vaccination status. Masks must be worn for the duration of the event and should only be briefly taken off when actively eating/drinking and put back on.

ResponsiBLUE screening

ALL attendees must complete the ResponsiBLUE screening survey the day of the event before entering the BSRB. Go to ResponsiBLUE.umich.edu

Any participant that does not pass the health screening survey is not permitted to enter the building, and if you are feeling ill or unwell, do not attempt to attend.
